Terms and conditions

These terms and conditions form part of the contract between The Fly Fishing Instructor hereafter TFFI and the client named in the attached invoice and to all members of the client party and should be read carefully.

The invoice contains the terms of payment.

We go to every length to ensure that all details shown in all our advertising are correct. We cannot, however, accept liability if due to circumstances beyond our control, the facilities pictured or described are altered or withdrawn.

Cancellation by Client:

If the client cancels within 48 hours of the booking no refund shall be made, cancellations outside this time will receive a 50% refund or you may reschedule your date at no extra cost.

Cancellation by TFFI:

We reserve the right to cancel any booking. In such a case we will offer an alternative booking of similar value or a full refund of any monies received by us.

Curtailments and liability:

Neither TFFI nor any person assisting it shall be liable for the consequences of delays or restrictions from adverse weather, obstructions, repairs or damage to navigational works, flooding, shortage of water, industrial action, fuel rationing, shortages of or non-availability of fuel or any other cause whatsoever and reserve the right to restrict the activity if unusual or hazardous conditions prevail.

Neither TFFI nor any person or company assisting or collaborating with it shall be held liable for the death, personal injury or illness of a client.

Health & Safety. We urge all who fish to wear protective eyewear to prevent accidents. Our experience is that insurance companies will not cover anyone who has not worn protective eyewear and medical advice cautions that eyewear should not be shared. Guests of TFFI should make provision for their own medical needs.

Fishery rules. Each fishery has its own rules and regulations governing the handling, taking and returning of fish, the conduct expected both on the river bank and in huts provided for guests' use, the removal of refuse, parking, safety, hours of fishing and other provisions. Clients of TFFI should read these conditions and abide by them.

Guides. Guides/Instructors work from 9am until 6pm. If you require their services outside these hours then that is by prior negotiation and we would ask that you reward the Guide for additional hours in addition to any gratuity that you would normally offer.

Hired & lent equipment. All equipment hired or borrowed by our clients is covered by insurance for malfunction or accidental breakage. Any equipment not returned at the end of the day will be billed to the client at retail price.

English Law governs the Client's contract with Famous Fishing and any dispute is to be settled in English Courts.

Coaching is available to children of 12 or over (still water only) but their parent/guardian needs to be present throughout the day. The parent or guardian must sign the consent form on the child's behalf and the duty of care for the child is with the parent/guardian.
